AESTHETICS

Experience Remarkable Rejuvenation
Empower Meaningful Change

Unparalleled Medical Grade Technology

Root of Skin™ MD formulas are the only topical skincare solutions that contain **the complete set of growth factors** relevant to skin regeneration as opposed to a disproportionate concentration of a few. Our formulas best mimic the complex micro-environment of healthy functioning skin.

Rejuvenation From Within

Using naturally occurring actives for optimal skin rejuvenation - **uniquely empowering skin to renew itself like it does in its youngest, healthiest stage.**

Net proceeds from the sale of Root of Skin™ MD support AIVITA Biomedical's cancer research.

SOURCECODE
TECHNOLOGY™

Root of Skin™ MD MICRO For Optimal Renewal.

Ideal use:

Following procedures such as laser treatments, chemical peels, micro-needling or micro-dermabrasion.

Apply topically to cover the treated areas.

Professional Strength. Potent, Pure & Gentle.

Using proprietary manufacturing methods, Root of Skin™ MD MICRO harnesses each and every active ingredient at its most potent yet physiologically appropriate level.

For powerful and impactful results, not aggressive ones.

MICRO

Advanced Treatment with Micronutrients

- 100% solution of Human Stem Cell-derived growth factors in nutrition-rich solution
- To be applied topically immediately after cosmetic procedure by licensed professional
- Sterile and preservative free
- Stored frozen, one-time use

Baseline & 24 hrs after application following microneedling

Baseline & 30 days after application
